VI-PERIODONTICS	

Although eight teeth constitute the anatomic compliment of a quadrant, for purposes of settling claims for periodontal treatment, payment will be based on five teeth per quadrant. Accordingly, if at least five teeth are treated in a quadrant, payment will be based on the allowance for a full quadrant. If fewer than five teeth are treated, payment will be pro-rated on the basis of five teeth per quadrant. When more than one periodontal procedure is performed on the same day, claims for services will be combined and payment will be based on the most costly procedure.
